ALL LEARNERS

Learning Environment

- We will create flexible learning environments, enabling students and teachers to reach their potential.
- Access to multiple learning areas will be provided

Data Analysis

- A range and balance of research based teaching methods will be used to maximize student learning
- Student learning will be increased through analysis of data and assessments

Technology Integration

- Students have regular opportunities to learn, create, collaborate and communicate using a variety of devices.
- Equipment and training will be provided to promote the integration of educational technology into our classrooms

Collaboration

- Promote a shared culture of continuous professional development
- Focus on collaborative talk
- Use of differentiated instructional strategies to encourage critical thinking.

Communication

- Parent Education opportunities relate to student academics and social/emotional growth
- Multiple channels will be used to maintain for communicating with parents- E News, School Messenger, school website, and flyers

Character Development

- Foster a positive school environment promoting social skill development, problem solving and conflict resolution through Soul Shoppe
- Promote charitable opportunities to assist local non profits e.g. project night night, food drive, coins for kids.

Partnerships

- Collaborative fundraising enables WCEF to fund integral programs such as Art, Music, PE, Science and Libraries.
- Parents and teachers partner to influence and implement school priorities through participation in PTO and IVAAC.
- Parent volunteers engage in the classroom and PTO to support student development and build community

Safety and Wellness

- Provide training, education, awareness and supplies to all students, parents and staff in order to foster a safe learning environment
- Promote emotional and social support for students through counseling services.
- Integrate healthy eating habits, nutrition and physical
