WCSD 2017-18 Student-Centered Coaching

The Big Idea

A glowing lightbulb hangs from a cord against a dark blue background. The lightbulb is the central focus, with its filament visible and a warm glow emanating from it. The cord is dark and blends into the background. The overall mood is contemplative and focused.

- Coaching is not about 'fixing people'
- Coaching is a partnership
- Coaching is about student learning

Coaching Cycles

- 4-6 weeks in duration
- 1 co-planning meeting per week
- 2 times per week coaching in the classroom
- Can be with individuals, pairs, or groups

Goals for Coaching Cycles are...

- Standards-based
- Something that the teacher cares about and that will benefit the students

AT THE ZOO

It is very crowded because people want to have a good view, I see a person going to the lion area he is running.

Today is going to be the best day ever, I am going to the zoo because a panda was born an hour ago.
