

Your donation matters!

Participating in art, music, P.E. and science lab activities gives students an academic edge.

Art develops critical thinking and creativity

Elementary art education helps develop creativity, visual learning, critical thinking and motor skills through art project creation.

Music supports math and language development

By teaching students to visualize how harmonic elements fit together, music helps to develop spatial intelligence and problem-solving ability. It also develops the left side of the brain, which processes language.

Physical Education fosters social and emotional wellness

Physical education supports knowledge gained in other disciplines, including science, math and social studies. Physical activity also improves self-discipline, judgment and goal-setting skills.

Science lab instruction builds a life-long appreciation for science and technology

With engaging, hands-on activities, science lab activities help develop the observation skills and inquisitiveness needed to meet 21st century workforce challenges.

Together, Buena Vista and WCEF K-12 provide enriching experiences that set students up for success. Donate now to help our students thrive!

Maximize your donation through a corporate matching gift!

Many employers match their employees' educational donations, effectively doubling the amount received by the BV PTA and WCEF K-12—but corporate matching gifts do not happen automatically. Check with your employer or contact WCEF K-12 for more information.
