

What is Common Core Math?

11/17/2015

WHAT HAS CHANGED

- Fewer standards allow us to go deeper
- Coherence across grade levels
- Math practices - Ways to talk and think about math
- Focus on process not product
- Increase in student collaboration around complex and relevant problems
- Focus on preparing students for college and careers

Focus

- TK-2nd: Addition and Subtraction with a focus in place value understanding
- 3rd-5th: Building to multiplication and division with fractions

Math Talk

A Math Talk is a facilitated discussion that gives students the opportunity to:

- Express their thinking
- Get exposure to new ways of thinking
- Building on other's thinking

Sample Math Talk

Here is a link to a sample math talk: [3rd Grade Math Talk - Sharing Strategies](#)

What strategies can you use to solve this?

$$125 \times 8$$

Q and A
